SightShield logo and colour kit

Working version, 12 Nov 2026. Not final. Built from Zac's CorelDRAW logo.

HORIZONTAL LOGO

Carbon on white. Documents, quotes, forms, white vehicles.

Lime and white on carbon. The hero version. Signage, socials, dark vehicles.

Carbon on lime. Hi-vis panels, workwear, booth.

Carbon on concrete. Grey vehicles, light backgrounds.

STACKED LOGO AND MARK

Stacked. Square spaces: hard hats, profile pictures, decals. Mark is 3x the wordmark height, gap is 1/3 of it.

Mark alone. Film-edge labels, icons and small spaces, where people already know the name.

Lime mark on carbon. App icon, social avatar, stickers.

CLEAR SPACE AND MINIMUM SIZE

Keep clear space of **half the mark's height** on every side (the hatched band).

Use	Horizontal logo	Mark alone
Print	40 mm wide	10 mm wide
Screen	200 px wide	32 px wide
Cut vinyl	200 mm wide	30 mm wide

Cut vinyl minimums keep the gaps between the rays over about 1 mm. Test cut once at the smallest size before a run.

Colour and type

Three colours plus white. Lime is the accent and only ever sits on carbon or as a solid panel.

SIGHT SHIELD

Carbon

HEX	#1B1C1E
RGB	27 28 30
CMYK	10 7 0 88 (conversion)
Use	Logo, text, backgrounds

Hi-vis Lime

HEX	#D4FF00
RGB	212 255 0
CMYK	17 0 100 0 (prints duller)
Use	Accent on carbon, panels

Concrete

HEX	#C8CCCF
RGB	200 204 207
CMYK	3 1 0 19 (conversion)
Use	Rules, secondary panels

White

HEX	#FFFFFF
RGB	255 255 255
Tint	Mist #EEF0F1 for light fills
Use	Paper, text on carbon

CLOSEST CUT VINYL

Colour	Best match	Also close
Carbon	Hexis HXS5889M Coal Black Matt (stocked)	HXS5889B Coal Black Gloss
Concrete	Metamark M7-122 Pale Grey	ImagePerfect IP5710 Pearl Grey Gloss; Hexis S5428B Cloud Grey Gloss
Hi-vis Lime	No standard match	Needs a fluorescent film. Ask Spicers for a fluoro yellow-green cut vinyl.

Check a physical swatch before ordering. These are screen matches from supplier colour data. Hi-vis lime is a fluorescent colour that standard vinyl and CMYK print cannot reach. Fluorescent films also fade faster outdoors, so use lime for indoor signs, workwear and accents, and keep vehicles to carbon and white with a lime detail.

TYPE

Headings in Barlow Condensed Bold

Body text in Barlow Regular, with Barlow SemiBold for labels.

Both are free Google fonts and already used in the Word template. The SIGHT SHIELD wordmark is artwork from the logo file, not typed text.

KEEP IT RIGHT

- Use the supplied files. Do not retype, redraw, stretch, outline or add effects.
- Lime is never text on white. It cannot be read.
- Colour split on any layout: 60% carbon, 30% concrete, 10% lime.
- Only the colours on this page. One-colour versions for cut vinyl and embroidery.
- On photos, put the logo on a carbon panel or use the white version on a dark area.

Files: svg (vector, for Corel and the plotter) and png (transparent, for documents and screens), in carbon, white, lime and lime-white.
